

VERI-Q™ COVID-19 Kit

On-Site Confirmation

At Airports, Drive-thru tests, etc.

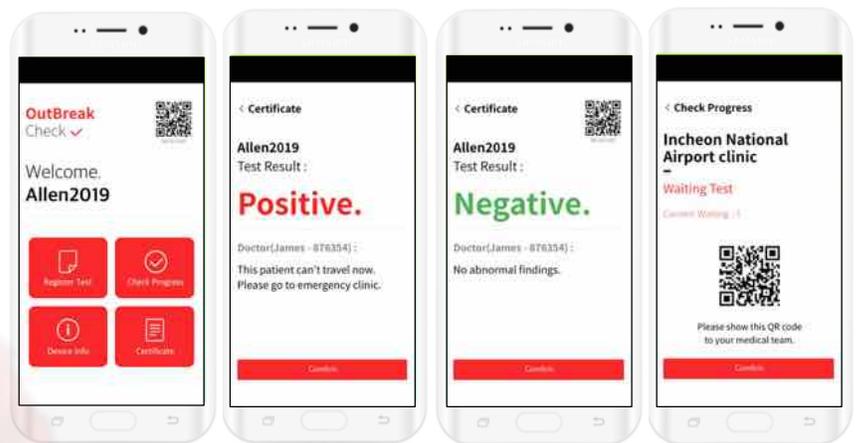

1 hour detection of COVID-19

✓ The Solution

- People coming in from flights need to be tested, quickly
- People with symptoms need to be tested, quickly
- The VERI-Q kit allows for one-hour detection of COVID-19 and allows for wide testing at a rapid pace
- Individuals are notified through an app of their status and QR code is given
- Public health officials can rest assured that their population is well-tested

Mobile app used in airport, drive-thru test, etc.
